PROFILE

I am a Frontend Developer and WordPress Expert, specializing in Elementor, Divi, and custom WordPress development. I build fully responsive, SEO-friendly, and high-performing websites tailored to client needs. With expertise in theme customization, UI/UX design, and website optimization, I deliver modern, user-friendly, and scalable web solutions.

EXPERTISE

● Elementor

WordPress Page Builder

I am an Elementor & Elementor Pro Expert, specializing in responsive design, theme customization, and dynamic content integration. I create SEO-optimized, high-performing websites with custom widgets and seamless user experiences.

● Divi

WordPress theme and visual page builder

I am a Divi Theme Expert, specializing in custom theme design, page layout customization, single product page, custom shop page, create variable product swatch and performance optimization to create responsive, user-friendly websites.

● WooCommerce

WordPress plugin for functional eCommerce store

I am a WooCommerce Expert specializing in building and optimizing high-performing eCommerce websites. I focus on customizing product pages, payment gateways, shipping methods, and order management to create seamless shopping experiences.

● WoodMart

Premium WordPress theme

I am a WoodMart Specialist, with expertise in fully customizing the WoodMart theme for eCommerce websites. I specialize in creating custom shop pages, custom single product pages, and optimizing store functionality. I also have experience in setting up payment gateways, shipping methods, and order management to ensure smooth and efficient online store operations.
